**[Report 56: Autopsies Reveal Medical Atrocities of Genetic Therapies Being Used Against a Respiratory Virus](#)** ...February 15, 2023 • by Robert W. Chandler, MD, MBA

#### **Summary:**

Dr. Arne Burkhardt is one of eight international pathologists, physicians and scientists who were asked to perform a second autopsy, requested by friends and family of the deceased who were not satisfied with the results of the first autopsy.

#### **Conclusions from Drs. Bhakdi and Burkhardt:**

1. “Histopathologic analyses show clear evidence of vaccine-induced, autoimmune-like pathology in multiple organs.
2. That myriad adverse events deriving from such auto-attack processes must be expected to very frequently occur in all [COVID-vaccinated] individuals, particularly following booster injections.
3. Beyond any doubt, injection of gene-based COVID-19 vaccines place lives under threat of illness and death.
4. We note that both mRNA and vector-based vaccines are represented among these cases, as are all four major manufacturers.”

## **SPECIAL SECTION: EMP INFO**

'An **electromagnetic pulse (EMP)** causes electromagnetic interference that can disrupts communications and damages electronic equipment; at higher levels of energy...and can damage objects such as buildings and aircraft. EMP weapons deliver high-energy EMP designed to disrupt unprotected infrastructure. In wartime, the most likely use would be to put the electrical network of the target country out of commission.' (source Wikipedia)

## **VIA Judy Note/Operation Disclosure**

**The Event: the real nightmare scenario that is worse than a Nuclear Attack on US soil.**

- **The Real TRUTH INTELLIGENCE** aren't reporting this or [DS] MSM doesn't sound the ALARMS is because they know the REAL CATASTROPHIC EVENT THAT EMPs can create.
- **One satellite** over the Continental United States is all it takes to bring down the 6 MAJOR power structures that controls the grid.
- **One EMP blast** from the high altitude of Satellites is enough to fry, destroy microchips that run phones, cars. Cities power structures, including all things digital that control U.S. cities transportation structures and digital chips that move the masses of trucking industries, food networks that rely on digital networks and modem machinery that run in microchips. An EMP blast in one night would destroy the Whole U.S. system and blackout the continental United States along with parts of Canada and Mexico.
- **Mil. Intelligence** reports and data that U.S. Government DOD DHS are well aware of the BIGGEST danger to U.S. soil is an EMP Attack. U.S. citizens would wake up in morning with no electricity, no cell phone service and no transportation, public and personal running. Gas stations would be closed, 152 million workers would be frozen in a complete blackout Event.
- **Within days** people would run out of food, gas, supplies and the biggest threat: looters who will destroy cities (which always happens, like Hurricane Katrina aftermath).
- **With microchips** and DIGITAL networks burned out and the total COLLAPSE of society taking place.... The military scenario reports estimate 3\_6 years to bring the population back under control.
- **Estimated death** of U.S. citizens could reach over 80% in 3 years as old people and citizens who are dependent on healthcare would be the first to die of with no medication or needed weekly medical assistance. The next mass die off would come from dehydration and water poisoning as millions with no survival skills will drink unfit water laced with bacteria and parasites, ect, which would cause a ripple effect of illness and mass sickness that would lead to millions dying without medical treatment.
- **Hunger in large cities** weeks lead to killings and looters would turn to neighbors hoods for food and Food Wars began.

- **Over 30 million people** stuck in high rise buildings, skyscrapers would die within days (millions of people would be stuck in elevators with no elevators running).
- **Currently the U.S. intelligence** is aware CCP has satellites that pass over the U.S. every 19 days and North Korea had 2 satellites that cross the U.S. regions from west to east weekly.
- **DHS with military intelligence reports** created EMP Program statue report and in CLASSIFIED Docs they have the FULL report of the Events to follow a MASSIVE EMP ATTACK.
- **TRUMP. KNEW** THE BIGGEST THREAT WAS EMP.  
<https://www.federalregister.gov/documents/2019/03/29/2019-06325/coordinating-national-resilience-to-electromagnetic-pulses>
- **Trump called for EMP security** which was manifested on March 26, 2019 in the form of Executive Order (E.O.) 13865. E.O. 13865 directed the Department of Homeland Security (DHS) to develop quadrennial risk assessments of EMP and deliver the first risk assessment of the threat within the first year.
- **But when BIDEN** took office the project was abandoned. Weeks later Klaus Satan Schwab would give chilling details of an event that would be worse than the pandemic and this would be connected to the digital infrastructure Cyber Attacks, which was also connected to Satellites and Deep State EMPs.
- **Deep State final card** connected to Project Blue Beam inside a massive blackout.
- **These EVENTS** are what the Military OPERATIONS in CHEYENNE MOUNTAIN ARE AVOIDING AND WITH U.S. SPACE FORCE THE PAST TWO YEARS DIGITALLY ATTACKING CCP. NORTH KOREA SATS AND REPROGRAMMING THEIR SATS WE PRAY THESE MAJOR EVENTS WILL BE AVOIDED.
