## 'R U SERIOUS' NEWS & PROPHECY

How Many Times Can You Be Lied To When You Don't Know The Truth?

**“WE ARE IN A BIG PICKLE” ...WHO IS RUNNING THIS COUNTRY?!**

### China Just Proved They Can Take Out America With EMP Balloons

“The recent sightings of Chinese "spy" balloons over the United States could be test runs by Beijing for a sneak attack on America using small nuclear explosions that set off massive power outages due to electromagnetic pulse bursts.

Now we know that Joe Biden and the Pentagon will not defend America against China's EMP balloons. They will just stand by and do nothing while the balloons take out America's power grid, leading to a total collapse of modern civilization across the continental United States.

Once the EMP attack is complete, China could easily invade and occupy the USA with relatively little effort. Most Americans would be fighting just to survive in a collapsed society.”

**Additional Epoch Times Note:** “The Chinese Communist Party (CCP) previously tested weapons systems that would use inflatable balloons as weapons delivery systems to launch hypersonic missiles. The programs would allow the regime to deploy powerful missiles in high earth orbit, and then use gravity to accelerate the speed of the missiles to make them even more difficult to counter. The studies are again raising concerns, in light of the CCP flying a spy balloon over the United States.”

### 90 Percent of US 'Would Die' From Chinese EMP Attack From Space Balloon | Facts Matter

“On Feb. 2, the entire country woke up to the threat of a Chinese communist spy balloon floating above the skies of Montana, where some of America's nuclear weapons are stored. The reason that it had been identified as a spy balloon from China is because the Pentagon came out and confirmed that fact. And according to Brigadier General Pat Ryder, the balloon not only has some sort of a payload underneath the surveillance component, but at the same time, it has the power to maneuver. According to the Chinese Communist Party

(CCP), it was a weather balloon that had malfunctioned and veered off its original course.

However, some have questioned this explanation and wondered whether this was a test-run for the CCP to see how far the balloon could go, and to see whether the balloon could get far enough to set off something like an electromagnetic pulse (EMP) attack, one of the biggest threats to our country today. A nuclear weapon would be detonated in the stratosphere, which would cripple the entirety of a country's electrical grid—setting a country back a hundred years in the blink of an eye.

William Graham, the chairman of the EMP Commission who has done extensive research into EMP attacks, made an assessment of the aftermath of an EMP attack on the United States. He concluded that only one in 10 Americans, mostly located in rural areas far away from cities, would be able to take care of themselves—meaning 90 percent of people would not be able to survive this threat.”

## **8 Reasons to Never Trust Anything This Government Says**

“Up until very recently, I didn't have trust issues with government. I thought there were good guys and bad guys but I thought the institution of government itself was only evil when we put evil people in place. I no longer feel this way. If we've learned anything over the last couple of years, it's that the "good guys" are extraordinarily rare in government at all levels and in all countries, and even they are often too weak or corrupted to be able to do much good.

On today's episode of The JD Rucker Show, which will air at 8am Pacific, I discussed eight reasons pulled from headlines that we should never trust anything this government tells us. In fact, we should go forward assuming that all government is fully corrupted. That's unfortunate because I am not an anarchist. I believe in the need for limited government, so if we can't trust them then we're forced to head toward the purest forms of government of and by the people. That's not how the Constitution was written as a whole, so we're in a big pickle.”

## **Public Sees America Being Destroyed By Design After China Allowed to Invade Airspace** ...More To Come!

**NEXT STEP: It Is Time To Pray For The Soul Of Our Nation**

## **PRAYER IN KANSAS STATE LEGISLATURE**

“When Minister Joe Wright was asked to open the new session of the Kansas Senate, everyone was expecting the usual generalities, but this is what they heard:

"Heavenly Father, we come before you today to ask your forgiveness and to seek your direction and guidance. We know Your Word says: "Woe to those who call evil good", but that is exactly what we have done.

- \* We have lost our spiritual equilibrium and reversed our values.
- \* We have ridiculed the absolute truth of Your Word and called it Pluralism.
- \* We have worshipped other gods and called it multiculturalism.
- \* We have endorsed perversion and called it alternative lifestyle.
- \* We have exploited the poor and called it the lottery.
- \* We have rewarded laziness and called it welfare.
- \* We have killed our unborn and called it choice.
- \* We have shot abortionists and called it justifiable.
- \* We have neglected to discipline our children and called it building self-esteem.
- \* We have abused power and called it politics.
- \* We have embezzled public funds and called it essential expenses.
- \* We have institutionalized bribery and called it sweets of office.
- \* We have coveted our neighbor's possessions and called it ambition.
- \* We have polluted the air with profanity and pornography and called it freedom of expression.
- \* We have ridiculed the time-honored values of our forefathers and called it enlightenment.

Search us, Oh GOD, and know our hearts today; cleanse us from every sin and set us free. Amen!"

The response was immediate. A number of legislators walked out during the prayer in protest.

In 6 short weeks, Central Christian Church, where Rev. Wright is pastor, logged more than 5,000 phone calls with only 47 of those calls responding negatively.

The church is now receiving international requests for copies of this prayer from India, Africa and Korea.

With the LORD'S help, may this prayer sweep over our nation and WHOLEHEARTEDLY become our desire so that we again can be called "ONE NATION UNDER GOD."

**WOW: 'This is treason if true': Chinese spy balloon details hidden from Trump**

And now a report at [the Gateway Pundit](#) reveals a detail that should alarm Americans: Military leaders knew about the balloons while Trump was in office but withheld the information from the commander in chief.

The report explains it was U.S. Rep. Mike Waltz, R-Fla., who was interviewed by Stuart Varney on the Fox Business Network.

Waltz said current Pentagon officials briefed him over the weekend and said Chinese spy balloons crossed over Texas and Florida during the Trump years. The report continued, "Waltz then dropped this bomb. Rep. Waltz said that Gen. James Mattis was secretary of defense at the time and decided not to inform President Trump because the Pentagon thought Trump was 'too provocative and aggressive!'"

Explained the Gateway Pundit report, "This is a treason if true. Mattis put the U.S. in danger, offered comfort to the enemy, allowed Chinese spying on U.S. installations, and then hid this from his superiors, including the president of the United States."

The report suggested members of Congress should be calling on Mattis to testify – under oath."
