[The Plan To Wreck America](#)

"...could explain why there has been such a vicious and sustained attack on our history, culture, traditions, religious beliefs, monuments, heroes, and founders. They want to replace our idealism with feelings of shame, humiliation and guilt. They want to erase our past, our collective values, our heritage, our commitment to personal freedom, and the very idea of America itself. They want to raze everything to the ground and start over. That is their basic Gameplan writ large.

"The destruction...is being carried out behind the cover of seemingly random events that are spreading chaos, exacerbating political divisions, increasing the incidents of public mayhem, and clearing the way for a violent restructuring of the government."...and "Ol' Joe is showing us he's buying into the world government group. This is not going to end well."

They can't build a new world order until the old one is destroyed."

Mat Staver, Founder and Chairman Liberty Counsel

“This is an end run around our courts and our Constitution. The only thing that can stop this loss of freedom is YOU!”

Joe Biden is going global. Using the G20 and the World Health Organization (WHO), he is scheming to give global despots the tyranny they crave, hoping to sidestep our constitutionally guaranteed freedom.

To get around the treaty requirement for Senate ratification, Biden is using the term “accord” or “agreement” regarding the proposed International Health Regulations (IHR) of the WHO. Like George W. Bush (who got us into this mess), Biden will try to use the U.S.

membership in the WHO as the basis to unilaterally give expansive authority to WHO over anything that has the “potential to impact public health.”

I cannot say this strong enough — IF CONGRESS DOES NOT STOP JOE BIDEN FROM GIVING AMERICAN SOVEREIGNTY TO WHO, THEN WE WILL NOT RECOGNIZE AMERICA AS THE “LAND OF THE FREE.””

The world is ready. We know that. The push for globalism, the new trick, which, by the way, even the Pope is taking a very big part in, is now global warming. It's climate change. AG GARLAND DESTROYED IN SENATE JUDICIARY HEARING; FBI AGENTS DIDN'T WANT TO RAID MAR-A-LAGO

Attorney General Merrick Garland on Wednesday, who was given no mercy by Sens. Josh Hawley of Missouri and Ted Cruz of Texas in a hearing of the Senate Judiciary Committee. Garland barely walked out of there. As Nick Arama at REDSTATE put it, he "got eaten alive" by Cruz. Here's part of that video.

<https://redstate.com/smoosieg/2023/03/01/watch-ted-cruz-chews-up-merrick-garland-and-spits-him-out-at-senate-judiciary-hearing-n710071>

Sen. Cruz didn't let Garland get away with evading simple yes-or-no questions with vague, lofty-sounding platitudes.

On the issue of activists threatening the lives of Supreme Court justices, the attorney general tried to avoid responsibility for decisions not to prosecute this crime, placing this on the U.S. Marshals when it is clearly his. Under Cruz's questioning, Garland's attempt was unsuccessful.

Katie Pavlich wrote about this for TOWNHALL, recalling the arrest last summer of a man outside Justice Brett Kavanaugh's home with the intent and tools to assassinate him. President Biden "failed to condemn or even acknowledge the situation," she said.

Specifically, Sen. Hawley went after Garland for the way Catholic pro-life speaker Mark Houck was treated during an over-the-top FBI raid and arrest, with 25-30 agents brandishing huge weapons and handcuffing him in front of his screaming children. "You used an unbelievable show of force with guns," Hawley said, "that I'd just note liberals usually decry...you're happy to deploy them against Catholics and innocent children!"

<https://redstate.com/nick-arama/2023/03/01/hawley-wrecks-garland-over-doj-bias-while-cruz-and-lee-finish-him-off-n710111>

The attorney general responded that the FBI "disagrees with that description" of the way they dealt with Houck. They can disagree all they want, but, fortunately, there's video that shows Hawley is right. You likely know Houck's story, as we've covered it here, but Arama summarizes it well.

<https://redstate.com/nick-arama/2022/09/24/fbi-agents-raid-home-of-pro-life-author-with-guns-drawn-in-front-of-his-screaming-kids-n632440>

When Sen. Mike Lee of Utah presented Garland with overwhelming evidence of their disparity of treatment for pro-life and pro-abortion activists, all

Garland could manage was the lame reply, “We apply the law equally.” It doesn’t get much weaker than that.

Arama makes the same point that we repeatedly have made: MAN, did we ever dodge a bullet when Garland was kept off the Supreme Court.

It’s going to take those rank-and-file whistleblowers to bring about reform of the ‘Justice’ Department and FBI. And a new report in the WASHINGTON POST - -- yes, WAPO --- tells us there was major discord between agents and DOJ attorneys, led by prosecutor Jay Bratt, over the raid on Mar-A-Lago. According to this story, two senior FBI officials who would be in charge of leading the raid “resisted the plan as too combative and proposed instead to seek permission to search his property.”

This was according to four people who spoke on condition of anonymity. Recall that Trump had been extremely accommodating to officials while negotiating with the National Archives and surely would have been fine with letting them come, just as they had come before. But apparently, FBI agents were pressured into conducting this raid, which AG Garland personally approved. Here’s a must-read analysis from Bob Hoge at REDSTATE.

<https://redstate.com/bobhoge/2023/03/01/shock-report-fbi-agents-did-not-want-to-raid-mar-a-lago-n710239>

This revelation makes me wonder how reluctant some FBI agents might have been to raid the home of Mark Houck.
