“Almost all modern-day vehicles are now connected to the Internet with the ability to transmit your personal data back to the car manufacturer where it can then be viewed and sold to others. Tesla is probably the worst one, due to the fact that some models have up to 9 cameras, and a recently published report admitted that Tesla employees were sharing photos and videos of Tesla owners, including “intimacy”, their kids, and their location. There is now a new free online tool that drivers can use to see how much their car may be spying on them.

**Biden Administration ‘Live In Government-Controlled Poverty’ Plan:** [Interior Secretary Deb Haaland Testifies It’s Better to Get Rid of Jobs in USA, Live in Poverty and Save the Planet – Even if Rest of The World Doesn’t Do It](#)

Around 15 years ago CTH outlined the inclusive goal of the progressive movement, modern Democrats as they were evolving, was to deconstruct the U.S. economic system so that Americans would be forced to live in government-controlled poverty. Essentially reduced to circling a campfire, eating sustainable algae cakes and picking parasites off our family members.

Steve Quayle once told me that he is seeing unprecedented military movement in Montana. Many are reporting the same all around the country. What we are seeing is the mobilization for war. Russia and China are preparing to invade the United States. It is my belief that we will be embroiled in a violent internal dispute when the attack comes.

During a press conference in Austin, Gov. Abbott announced the new specially trained National Guard Unit called the Texas Tactical Border Force. “Right now as we are speaking, the Texas National Guard is loading Blackhawk helicopters and C130s, deploying specially trained National Guard members for the Texas Tactical Border Force. They will be deployed to hot spots along the border to intercept to repel and to turn back migrants who are trying to enter Texas illegally,” Abbott said. Earlier this month, Rep.
