Dr. Pierre Kory, a pulmonary and critical care medicine specialist, is blaming the nexus between the pharma industry and the government along with corrupt medical journals for deceiving the public about COVID-19 and vaccines, which resulted in “millions of lives lost.” Kory claims to have looked at three years of every policy issued by government agencies.

“Guess what that brought us? It brought us multiple humanitarian catastrophes, millions of lives lost from the suppression of early treatment, millions of people dead around the world from the vaccines, and now epidemics of vaccine injury and long COVID with very little treatment...e.g. “In February this year, Florida Surgeon General Joseph Ladapo claimed that there was a [4,400 percent jump](#) in life-threatening conditions reported in the state with VAERS since the COVID-19 vaccine rollout.

- “I always knew pharma was bad. I didn’t understand that they are literally a criminal syndicate, who have been committing crimes for decades.
- “When it came to government, I wasn’t aware of how corporations have literally taken over almost all the agencies of government. The response to COVID was controlled and conducted by the pharmaceutical industry, with probably even bigger powers behind them.”

"More than 90% of blacks (6.5 million) who came to the U.S. came **AFTER** the Civil War by their own free choice, as compared to the half million who were brought here as slaves prior to the Civil War."

My grandparents came to this country as poor immigrants at the start of the 20th century – two generations after the Civil War. So why is this important? Because Democrats and black "leaders" want me to pay reparations for black slavery that none of my ancestors were guilty of. Most Americans' ancestors had nothing to do with slavery since those ancestors came to the U.S. like mine did...

Some Democrats are asking for \$14 trillion for reparations for blacks. That's more than half of the entire annual GDP and an amount that would increase the federal debt by 50%.

Approximately \$50 trillion in net present value already has been spent since LBJ for the Great Society and affirmative action. Do taxpayers get a credit for what was spent to help blacks against those reparation payments?

If he was not God incarnate, Jesus would not be able to forgive sins. Born-Again Believers In Christ Do Not Have An Appointment With God's Wrath

Thankfully the object and basis of our trust is in a source that has an impeccable and perfect track record. Not once has it been inaccurate, not once has it asked us to believe in something contradictory to evidence, and not once has it been misleading or proven itself untrustworthy. Born again believers in Christ do not have an appointment with God's wrath, and this "book of all books" says that in order to enter the kingdom of God we will need to change from mortal to immortal and corruptible to incorruptible.

## **UK Schools Are Secretly Teaching Kids About 'The Joys of BDSM' ...according to a shocking new survey conducted by the Civitas think tank.**

The survey found that teenagers in Britain are being exposed to hardcore pornographic material in the classroom under the guise of sex education. The survey also revealed how deeply transgender propaganda has penetrated the

British education system.

- 67 per cent have been taught that sex is assigned at birth
- 32 per cent have been taught that a woman can have a penis
- 20 per cent have been taught that a man can get pregnant
- 54 per cent know someone who has changed their gender at school or wants to do so

[Summit.news](#) reports: Two-fifths of pupils have also been taught about “sex positivity,” while nearly a quarter have been given lessons on bondage, discipline, sadism and masochism (BDSM).

The poll also highlights how schools are teaching kids to hate their own country and men in general, with 42 per cent being taught Britain is a racist country and 41 per cent being taught young men are a problem for society.

Schools have been told that they must show parents teaching materials after external groups, including transgender lobby organizations, tried to prevent this from happening.

77 per cent of parents in the poll want the legal right to review all sex education material before their children are exposed to it.

“What is happening in our schools under the guise of relationships and sex education is a population level psychological and social experiment on our children and young people,” said Conservative MP Miriam Cates.

“There is nothing more fundamental or immutable to a person’s identity than their biological sex, and to tell a whole generation of children or allow them to believe that they can somehow change their sex is an experiment with completely unknown – and likely very damaging – outcomes,” she added.

Cates warned how lessons about BDSM “simply opens the door to groomers who win when it becomes normal for children to talk about sexual activity with adults.”

Campaigner Jo-Anne Nadler said the poll underscores how legislation has “opened the door” to radical transgender activists, and “ushered them straight into the classroom.”

The number of children being referred for gender dysphoria has risen from around 250 a decade ago to more than 5,000, underscoring how the education system and popular culture has socially engineered young people to identify as transgender.

Schools are legally bound not to politically indoctrinate children, but LGBT activists have tried to get around this by claiming to be non-political, which is a complete fallacy.

“Too much of today’s schooling seems intent on turning out activists rather than young people confident to develop their own opinions based on established knowledge,” said Nadler.

## **THE UN/WHO/CIA SATANIC LGBT AGENDA TO NORMALIZE PEDOPHILIA**

- **“Schools must equip children to have sexual partners”** said the World Health Organization and United Nations in a recent mandate sent out to schools around the World. It appeared that WHO and the UN have combined efforts in an agenda to sexualize little children in primary education worldwide for the purpose of normalizing pedophilia.
- **“Little children are sexual beings who must have sexual partners and begin with sex as soon as possible. For this reason, kindergartens and elementary schools must teach children to develop lust and sexual desire, learn masturbation, build same-sex relationships, use online pornography, and learn different sexual techniques such as oral sex.”**  
The above is a paraphrased summary of the official guidelines issued by the World Health Organization and the United Nations to educational authorities worldwide. Meanwhile, judicial organizations are issuing statements that sex between little children and adults should be legalized, while media outlets and political parties are calling for the acceptance of pedophilia as a “normal sexual orientation.”
- **A recent report by Stop World Control** consisted of nothing but solid evidence of this Pedophilia Agenda, with many official documents, videos, books, archives, etc. All PDF documents may be downloaded from the references section at the end of this report.
